

# A Lovers Holiday

Jermaine Jackson

When I'm in love  
I do it right  
One on one  
All through the night  
Ooh I take my time  
And work it slow  
You've been whipped  
Before you know  
Cause in these arms  
There's ecstasy  
Once we've touched  
You're history  
Ooh imagine baby  
You'll lose control  
When we make love  
Away we go

We can go where we want to  
The world is ours tonight  
We can do what we want to  
Just tell me your delight  
Girl I'll steal your heart, take your breath away  
Take you on lovers holiday

We can't stop now  
While we're in flight  
We can't turn back  
It feels so right, ooh  
Our destinations, not far away  
In just one minute...a holiday now  
As we're coming down baby  
Hold me close 'cause I'm not through and  
There won't be no ground baby  
I'm a work at it, I'm a whack it, 'til you like it  
Up up up and away away we go

Our destination is not far away  
We're one minute from a holiday  
The whole wide world is ours tonight  
Can't turn back it feels so right  
Come on pretty baby just fly with me  
I'll take you to a place where you oughta be  
Ooh baby just you and me  
In ecstasy

As we're coming down baby  
Hold me close 'cause I'm not through and  
There won't be no ground baby  
I'm a work it, I'm a whack it, 'til you like it  
Up up up and away away we go
