

# Some Things Are Private

Jermaine Jackson

Better listen good girl  
I'm gonna tell you smomething  
I want you to hear  
Don't stand me up now  
If you can't be trusted  
Let's get the signals clear

'Cause you may want to be confidential  
And let your feelings show  
But before I open up my heart  
There's the thing you've got to know

Some things are private  
Better off left unsaid  
Some things are private  
You've got to learn to keep your head

I'm gonna take you to all the right places  
See teh right faces  
Show you the things you've never seen  
Take you uptown girl in your party dress  
Intorduce you to society  
But just remember when they're asking questions  
You've got to be discreet  
Keep in mind I've never been the kind  
Who lives his business on the street

Some things are private  
Better off left unsaid  
Some things are private  
You gotta get it through your head  
Some things are private  
Sworn to secrecy  
Some things are private  
Just between you and me

I'm gonna let you see  
All of my faces  
All the soft places  
Let you get a closer look  
I can show you a side that you've never seen  
But girl don't be an open book  
'Cause you c may want to be confidential  
And put your trust in me  
I'm gonna try and put my trust in you  
Just don't invade my privacy
