

# Brilliance

Jermaine Stewart

Gee, I'm lucky  
I finally found somebody new  
And love's been here all the time  
'Cause you're the reason  
Why I smile the way I do  
I can't believe that you're mine

You bought the joy and left the pain  
I love my life and now the time  
Is on our side, side  
At first, at last, I finally found  
Someone perfect  
You brought the brilliance  
Into my life, into my life

You put the sunshine  
Into the dark side part of me  
Spelled down in your magic trance  
'Cause you're the reason  
Why I smile the way I do  
I can't believe that you're mine

You bought the joy and left the pain  
I love my life and now the time  
Is on our side, side  
At first, at last, I finally found  
Someone perfect  
You brought the brilliance  
Into my life, into my life

You bought the joy and left the pain  
I love my life and now the time  
Is on our side, side  
At first, at last, I finally found  
Someone perfect  
You brought the brilliance  
Into my life

You bought the joy and left the pain  
I love my life and now the time  
Is on our side, side  
At first, at last, I finally found  
Someone perfect  
You brought the brilliance  
Into my life, into my life
