

# Drink To That All Night

Jerrod Niemann

Pullin' up now, and the parking lot's full  
Gonna ride that cow with a Dallas bull  
Everybody in the ATL is coming  
DJs got those speakers thumping  
Got a black ford not a white Mercedes  
Walking in the front door checking out the ladies  
My buddy says hey boys I'm buying  
The hottest girl in here's giving me the eye and.

Everybody knows, it's gonna be one of those  
I can drink to that all night  
That's the stuff I like  
That's the kind of party makes you throw your hands up high  
Bout to tie one on talking gone gone gone  
Turning all the wrongs into right  
I can drink to that all night

Working on the sweet thing sitting on a bar stool  
Doing shots of Jack girl gonna take it old school  
Singing hell yeah to every song they're playing  
Do ya wanna dance? Baby I'm just saying

Everybody knows, it's gonna be one of those  
I can drink to that all night  
That's the stuff I like  
That's the kind of party makes you throw your hands up high  
Bout to tie one on talking gone gone gone  
Turning all the wrongs into right  
I can drink to that all night

Yeah, I can drink to that all night

Take your cup fill it up  
You can't raise it high enough  
Take your cup fill it up  
You can't raise it high enough

Everybody knows, it's gonna be one of those  
I can drink to that all night  
That's the stuff I like  
That's the kind of party makes you throw your hands up  
I can drink to that all night  
That's the stuff I like  
That's the kind of party makes you throw your hands up high  
Bout to tie one on talking gone gone gone  
Turning all the wrongs into right  
I can drink to that all night

I can drink to that all night  
I can drink to that all night

Take your cup fill it up  
You can't raise it high enough  
Take your cup fill it up  
You can't raise it high enough  
Take your cup fill it up  
You can't raise it high enough

Take your cup fill it up  
You can't raise it high enough
