

# Real Women Drink Beer

Jerrold Niemann

After years of confusion  
It's clear there's no more delusion  
It's here my conclusion  
I like girls with cans or bottles in their hands  
Ain't scared to pop a top with me

Real women drink beer  
And get country crazy  
That denim on their rear  
Fits just right to me  
So sip your red wine or any turpentine  
But that won't go around here  
Real women drink beer

Other kinds of liquid pollution  
And the mends  
It's like a mental institution  
So I find my solution  
Is blond, dark or red next to my friend  
Have some two-for-one fun you'll see

SO fellas next time you're at the beer store  
Just think about her rack  
When she opens that refrigerator door and sees  
An extra six-pack

Real women drink beer  
Real women drink beer  
Real women drink beer
