

# Angel Eyes

Jerry Cantrell

Homely, thick in mind, never listen  
Worn, tired, siren drawn, tunnel vision  
Don't forget this chance only live once  
Sprung, hypnotized by light, had to get some

Get it all  
She said I forgive you  
Don't regret our time  
You've got to move on love

Angel eyes  
Four years and still I dream  
Agonize  
Such beauty not since seen

Bow down, piper leading, you were one  
Hungry, took the prize, then you got dumb  
Don't live out your life like a sad song  
Sprung, hypnotized by light, had to get some

Get it all  
She said I forgive you  
You must too or die  
You've got to let me go

Angel eyes  
Four years and still I dream  
Agonize  
Such beauty not since seen

Angel eyes  
Your face is all I see  
Agonize  
Forever haunting me
