

## Feel The Void

Jerry Cantrell

I can't feel my life  
Makes me want to cry  
How bad I feel inside  
Like I wanna die

Can't explain, won't apologize  
Re-entry blown, while I was gone tilt of axis changed

Destination unknown  
Wreckage in tow  
Depression grows  
I have no home

Consequences on accepted role  
Discontented seeds, loveless garden thrown bitter crop to reap  
Understanding hard-pressed won  
Through me you feel the void from where the sad sounds come

Free return alone in time to see the sun go black
