

Leave The Little Girl Alone

Jerry Garcia

She's wicked but she knows what she likes
She's wicked but she knows what she likes
Don't you underrate her, she's a navigator
She's wicked but she's such a delight

She lives in a world of her own
She lives in a world of her own
All the people there know enough not to stare
They love her or they leave her alone

Leave the little girl alone
Won't you leave that poor girl alone?
To each and every one his own
I say leave that girl alone

She's twisted but she's got what it takes
She's twisted but she's got what it takes
She's got what it takes to make her own mistakes
She's twisted but she's got what it takes

Leave the little girl alone
Won't you leave that poor girl alone?
To each and every one his own
I say leave that girl alone

Leave the little girl alone
Leave that little girl alone
She's keeping it tight
Gonna make out all right
Leave that little girl alone

She's vicious but she knows when to stop
She's vicious but she knows when to stop
She's makin' out fine, knows where to draw the line
She's vicious but she knows when to stop
