

# Won't You Give Me One More Chance

Jerry Jeff Walker

Don't you think I know  
You don't want me anymore  
How you've turned off to me  
Like the closing of the door  
When I search your eyes  
For a sign that you care  
All I see is goodbye  
And you wish that I weren't here

Won't you give me one more chance  
To make it with you  
Forget about the bad we had  
Don't believe we're through  
Come and lie with me  
Like the way you used to do  
Cause you're the only thing  
I've got to hold on to

Thought I knew all the ways  
Love can go blind  
Like the winter deep and cold  
In the heat of summertime  
And though I feel a part of you  
Is somehow out of tune  
It's something I can't see  
Like the dark side of the moon

Won't you give me one more chance  
To make it with you  
Forget about the bad we had  
Don't believe we're through  
Come and lie with me  
Like the way you used to do  
Cause you're the only thing  
I've got to hold on to  
(3x)
