

I Really Don't Want to Know

Jerry Lee Lewis

How many arms have held you
And hated to let you go?
How many, how many, I wonder
But I really don't want to know

How many lips have kissed you
And set your soul aglow?
How many, how many, I wonder
But I really don't want to know

So always make me wonder
Always make me guess
And even if I ask you
Darling, please don't confess

Just let it remain your secret
But darling, I love you so
No wonder, no wonder, I wonder
No, I really don't want to know
