Lovin' up a Storm

Jerry Lee Lewis

When our kisses fly like oak leaves Caught in a gust of wind My heart beats fast, a clickty-clack Like a train goin' round a bend

I call that lovin' up a storm!
I said that's lovin up a storm!
Well its good for you honey
It won't do you no harm

Ah when a we get with it darlin'
All I can hear is a sigh
Something touches you deep in your heart
Like it's lightin' from the sky

I call that lovin' up a storm! Whoaa Lovin Up a storm! Well its good for you baby It won't do you no harm

When we're embracing darlin'
I get wild as a hurricane
Ah when we kiss Great Balls of Fire!
Ice-water's running through my veins

I call that lovin' up a storm! Ohhh lovin up a storm! Well its good for you baby It won't do you no harm

Well its good for you baby It won't do you no harm Oh... It's good for you baby It won't do you no harm
