

Broken Heart Attack

Jerry Reed

I seen your clothes were missin' when I looked into the closet
I saw the goodbye note ya left me on the kitchen faucet
The family car was missin' and the furniture was gone
You didn't even leave a towel for me to do my cryin' on
After losing you this way I'll never be the same
You left me with a broken heart and cryin' with the pain
Of a broken heart attack a broken heart attack
An emotional thrombosis in my coronary sac
The pain got in my veins and made the capillaries crack
Causing traumatic fibrillations in the respiratory sac
There ain't no doubt about it gal my train done jumped the track
Losin' you done made me have a broken heart attack
Oh the pain oh it's intense

Well I went screamin' to my family doctor clutchin' to my chest
Said the pain inside's intense doc what do you suggest
Well son let's have an examination take your shirt off
He put his stethoscope up to my chest said let me hear ya cough
Well upon examination boy all I can say to you
It's my professional opinion ain't nothin' I can do
You've had a broken heart attack a broken heart attack
An emotional thrombosis in your coronary sac
The pain got in your veins and made the capillaries crack
Causing traumatic fibrillations in your respiratory sac
There ain't no doubt about it boy your train done leaped the track
That woman left and you done had a broken heart attack
Oh the pain oh it's intense friend
