

Coming Up Roses

Jerry Reed

Looks like my whole world is coming up roses
My long lonely nights at last are at an end
It looks like my whole world is coming up roses
Now that you are in my arms again

Gone from my life was all reason for living I lost my world the
day we parted

Lyricsvault.net the ultimate site for golden oldies and evergreens

I never knew a heart could feel so much regret
But back in your arms I can hardly remember ever feeling broken
hearted
For like a bad dream when it's over you soon forget

Looks like my whole world is coming up roses...
Looks like my whole world is coming up roses...
