

If It Comes To That

Jerry Reed

Everybody tells me you're a woman with a past
Quick to make a promise but your love will never last
They tell me that I'm foolish to think that your love could be
fair
But they don't know that I'm too much in love to even care
I'll be satisfied lovin' and losin' you honey if it comes to th
at

If it comes right down to hurtin' and you break this heart of m
ine
At least I've known the happiness of havin' your love for a tim
e
If it happens that I lose you then I'll have the memory of how
you loved me
So I'll be yours until it happens and I'm gonna love you all th
e way
I don't care what comes tomorrow as long as you're all mine tod
ay
I'll be satisfied lovin' and losin' you honey if it comes to th
at

If it comes right down to hurtin' and you break this heart of m
ine...
