

# Love Man

Jerry Reed

When you're sick in the bed baby you call the doctor  
When you run out of pills you call your pharmaceutical man yeah  
When you run out of grits and fatback honey  
You go see the fellow down at the all night Buy Right Market St  
and  
Ah but when you're lonesome and need some attention  
Then you get on the phone and you call up your love man that's  
me

Yes I'm your love man I'm your love man  
I got all the sweet talk you need and my kisses are guaranteed  
I'm your love man I'm your love man  
All my huggin' I bet is somethin' you won't ever forget yeah

When there's a problem too big for you to handle  
And you need help cause you ain't havin' no luck  
Well you can look through the yellow pages of the phone book  
And find somebody come to your house to fix you up  
Why there's people in this world that can fix anything you can  
name from A to Z  
But when you need love specialization you're lookin' to book hi  
m you call me

Cause I'm your love man I'm your love man...

Talk guitar  
Yeah that's cute
