The road of love with you got rough and rocky woman

And I turned out the loser of the game

Because you turned out to be everything but in love with me

And when a woman's been untrue it can leave a mark on you

Cause I got love prints that soap and water can't wash away
Love prints gonna be with me till my dyin' day
A broken heart that a woman just tore apart
I got love prints where a woman just walked all over me
Love prints called sorrow and misery
A heart inside where love once lived but died
I got love prints love prints all over my heart
Hmmm

Well I wish this world could look inside my thinkin' woman And just see how lovin' you messed up my mind Because you turned out to be everything but in love with me And when a woman has been untrue it can leave a mark on you

Cause I got love prints that soap and water can't wash away...
