

Awaken

Jes

You stand on your own through life
You never look down or think about it twice
For all that we can't define
Is simple and free and yours and mine so

Awaken your heart ...your mind don't let it slip by you
Awaken your heart ...your mind don't let it slip by you

For anyone who says you cant
For every choice you might regret
This is your lease on life
And with every breath
Leave your doubt behind

Awaken your heart ...your mind don't let it slip by you
Awaken your heart, your mind don't let it slip by you
Your mind... your heart ...don't let
Your mind... your heart... your mind, your heart
Open your eyes... Open your eyes
Awaken.
