

Dig This Record

Jesca Hoop

Dig this record
Dig this record now
Dig it like you never dug one before
'Cause it's so far out

Find your lover
Lay your lover down
Make a moment to remember
And relive through this sound

Dig it out of the basement now
Out from under the Van Gogh owl
Dig it out from the discard and onto the record player
Now that I'm gone and far away

I am in a flood
I'm about to sink
I am tits up in the water without a drop to drink
I look for my saviour
He's nowhere to be found
So I hang on to my guitar like a lifeboat till we both drown

Dig it out of the basement now
Out from under the Van Gogh owl
Dig it out from the discard and onto the record player
Now that I'm gone and far away
Now that I'm gone and far away
Now that I'm gone and far away

Dig this record
Dig this record now
Dig it like you never dug one before
'Cause it's so far out

I am on the drift
I am out to sea
You know this poor world couldn't put a price on the likes of me
Turn to your lover
Kiss your lover's mouth
There's no others I'd rather be with as my song plays out

Dig it out of the basement now
Out from under the Van Gogh owl
Dig it out from the discard and onto the record player
Now that I'm gone and far away
Now that I'm gone and far away
Now that I'm gone and far away

Now that I'm gone and far away
Now that I'm gone and far away
Now that I'm gone and far away
Now that I'm gone and far away
