Life Within A Life

Jesca Hoop

They come and they go, my woes and my joy I know getting attached to that temporal toil is ignorant They ebb and they flo, my frowns and my smiles I know getting attached to that miracle mile is ignorant

State of bliss, tell me are you happiness Something's gone terrible wrong if you are other than this Turn out the sun, all of your golden days are gone There's a world better than this one is your favorite song

They observe and then note the flux in your power Your efficiency in spinning your hour to hour is significant Deserve and then don't your bouquet of flowers The universal candy is bitter, sweet, salty and sour Get used to it

State of bliss, tell me are you happiness Something's gone terribly wrong if you are other than this Go get your gun, no need in leaving the safety on I'm going higher one day is your favorite song

Yeah, they come sure as they go Yeah, they come sure as they go So they come sure as they go Yes, they come sure as they go Sure as they go

Life within a life has ended and begun Again my tune is sung We sail into the sun, light and brightest night Dark and dismal day has ended and begun In out and in of one, we sail into the sun

Life within a life has ended and begun In out and in of one We sail into the sun

Life within a life has ended and begun In out and in of one We sail into the sun, light and brightest night Dark and dismal day has ended and begun In out and in of one, we sail into the sun
