

# Pack Animal

Jesca Hoop

In the mirror  
The mirror  
There you are again  
Wearing my green eyes  
My brown hair and my aging skin  
My body is your bed  
Dear reflection you're my oldest friend  
And where you go I go  
End of eternity and back again

And I don't wanna be here  
All by myself in this strange house  
It won't let me out  
Don't wanna be here  
All by myself in this strange house  
It won't let me out

It's a new day  
A new day  
Here you are again  
Speaking in my voice  
With my tongue  
In my brain  
My voice is echoing  
Dear reflection it's a sad refrain  
How we endure the hours  
And in my arms we sleep alone again

And I don't wanna be here  
All by myself in this strange house  
It won't let me out  
Don't wanna be here  
All by myself in this strange house  
It won't let me out  
It's unnatural  
I'm a pack animal

I need it heart to heart  
Mouth to mouth  
And bones to bones

And I don't wanna be here  
All by myself in this strange house  
It won't let me out  
Don't wanna be here  
All by myself in this strange house  
It won't let me out

Don't wanna be here  
All by myself in this strange house  
It won't let me out  
Don't wanna be here  
All by myself in this strange house  
It won't let me out

Don't wanna be here  
Be here, be here
