

Love Me

Jess Glynne

Smoking doesn't tire me
But with you it really hits me
Something must be wrong with me
Never let a word slip
Cause I know you really want it
I'm confident in what I see

Baby, taste me, get a little crazy
I see you blazing, you got my heart racing
And I, I wouldn't want you to know
And I, I wouldn't want you to know

And I, I know that I'm not wrong
And you, yeah, you are gonna love me, love me
And I don't care if I'm ever good
Cause you, yeah, you are gonna love me, love me

You, you're gonna love me, love me
You, you're gonna love me, love me
You, you're gonna love me, love me
You, you're gonna love me, love me

Find it funny when you want it
And I turn my back accuse you
Something must be wrong with you
And don't be scared to do the chasing
It's only me you're facing
Be confident in what you do

Baby, taste me, get a little crazy
I see you blazing, you got my heart racing
And I, I wouldn't want you to know
And I, I wouldn't want you to know

And I, I know that I'm not wrong
And you, yeah, you are gonna love me, love me
And I don't care if I'm ever good
Cause you, yeah, you are gonna love me, love me

You, you're gonna love me, love me
You, you're gonna love me, love me
You, you're gonna love me, love me
You, you're gonna love me, love me

Let's have a party, the only guest is you
Don't beat around the bush, we both want to
I'm gonna tease it 'til you see it through
I got the message, got a call from you
Let's have a party, the only guest is you
Don't beat around the bush, we both want to
I'm gonna tease it 'til you see it through
I got the message, got a call from you
I won't confess...

And I, I know that I'm not wrong
And you, yeah, you are gonna love me, love me
And I don't care if I'm ever good

Cause you, yeah, you are gonna love me, love me
And I, I know that I'm not wrong
And you, yeah, you are gonna love me, love me
And I don't care if I'm ever good
Cause you, yeah, you are gonna love me, love me
