

# Derailed

Jess Moskaluke

Verse:

You and I racing for Heaven  
We never felt better  
It felt like forever  
Whoa, oh

Then life hit us so hard  
We never saw it coming  
We both started running

We got so far off track, yeah  
That we could never  
Never get it back  
Derailed

Chorus:

We let go when we should've held on  
We had it all and now it's all gone  
The bed where we made love  
Is a bed of nails  
Where I die  
Every night  
Thinking 'bout how we failed  
Derailed

Verse:

I cry, wondering why  
The best of intentions  
Got lost in the wreckage  
Whoa, oh

How could something so good  
Too strong to unravel  
Be taken for granted?

Feelings left in mid-air  
Then two hearts  
In pieces everywhere  
Derailed

Chorus:

We let go when we should've held on  
We had it all and now it's all gone  
The bed where we made love  
Is a bed of nails  
Where I die  
Every night  
Thinking 'bout how we failed  
Derailed

Bridge:

Could we hold on tighter, fight harder, give it everything?  
Is it way too late?  
Or baby could we be who we were before?  
Before we derailed

Chorus:

We let go when we should've held on  
We had it all and now it's all gone  
The bed where we made love  
Is a bed of nails  
Where I die  
Every night  
Thinking 'bout how we failed  
Derailed
