

# Never Better

Jess Moskaluke

People call, people text  
Where I've been, what comes next  
Am I finally over you  
Have I found somebody new  
Force a smile on my face  
I don't know what to say  
When they ask if I'm okay  
I don't wanna lie  
I keep the hurt inside  
And I just tell 'em never better

Cause anywhere I go  
No matter what I do  
The truth is that I'm never better  
Than I was  
When I was with you  
With you

Every street I go down  
Every place I hang out  
There's another memory saying you're not here with me  
That was then, this is now  
Different boy, different crowd  
But I know you're still around  
If I see you again  
And you ask me how I've been  
Well I'll just say never better

Cause anywhere I go  
No matter what I do  
The truth is that I'm never better  
Than I was  
When I was with you  
With you

Never better than the love we made  
Never better than the nights we had  
I know I will never be the same  
So I can say I'm never better  
I'll try to keep it all together  
Yeah I'll just say never better

Cause anywhere I go  
No matter what I do  
The truth is that I'm never better  
Than I was  
When I was with you  
With you
