

# The Hardest Day

Jess Moskaluke

Verse:

John Wayne said  
Courage is when you're scared to death  
But you saddle up anyway  
You saddle up anyway

That's how you lived  
Like a mustang running wild  
Straight through your pain  
You would say

Chorus:

I could let it swallow me  
I could let it take me down  
I could let it run my dreams  
Into the ground  
But because of you  
There's nothing I can't face  
Even on my hardest day  
Even on my hardest day

Verse:

By your bed  
I learned the truth of life and death  
And what it meant to be brave  
Oh, what it meant to be brave

So I'm gonna live  
Like a fire raging in the RAIN  
Moving through the pain, unafraid

Chorus:

I won't let it swallow me  
I won't let it take me down  
I won't let it run my dreams  
Into the ground  
All because of you  
There's nothing I can't face  
Even on my hardest day

Bridge:

I'll find the words when I can't speak  
I'll find my song when I can't sing  
I'll run the race, run the race when I can't move

So because of you, all because of you

Chorus:

I won't let it swallow me  
I won't let it take me down  
I won't let it run my dreams  
Into the ground  
All because of you  
There's nothing I can't face  
Even on my hardest day  
Even on my hardest day

Even on my hardest day
