Na, na, na, na, na, na, etc.
On a winter's day
I don't need anyone
On the month of May
I don't need anyone
Got some cigarettes
I don't need anyone
And no real regrets
I don't need anyone

Talk about the future
And no one even cares
Talk about the future
Solitaire

Some buy diamond rings
I don't need anything
Angels clip their wings
I don't need anything
For the price you pay
I don't need anyone
I'll just walk away
I don't need anyone
Talk about the future
And roll you're heart away
Talk about the future
In the soul
Talk about the future
And no one even cares
Talk about the future
