

Checkmate

Jesse McCartney

How would you feel when the king has gotta lie down
Will you finally see that this is something that couldn't work out
You thought that you'd be ready but I knew that you always had your doubts

I just wanted to be the one to save you, the one that knew how
But this all would have an ending, it was so clear to see
'Cause you couldn't wrap your head around the jealousy

That's why I'm calling checkmate, checkmate
I'm calling checkmate on you baby
I'm calling checkmate, checkmate
You are gonna lose 'cause you chose to make the moves you make
Checkmate, checkmate
I'm calling checkmate on you baby
Oh I'm calling checkmate, checkmate
Girl you will always lose when you choose to make the moves you make

Said how are you feeling when the king has gotta lie down?
'Cause you put up a wall around your castle and I just can't climb around

I can hear you on the other side of it, screaming
But you're too afraid to face the demons
So you let your heart just take a beating
And I'm the one who pays for it, think I gotta get

I'm calling checkmate, checkmate
I'm calling checkmate on you baby
I'm calling checkmate, checkmate
You are gonna lose 'cause you chose to make the moves you make
Checkmate, checkmate
I'm calling checkmate on you baby
Oh I'm calling checkmate, checkmate
Girl you will always lose when you choose to make the moves you make

And I don't really wanna do this
Girl it's breaking my heart in two
Yes I'd give anything to keep on playing here with you
And maybe we can pick these pieces up and start again another day when things have changed
But you left me with no other moves to choose

Checkmate
I'm calling checkmate on you baby
I'm calling checkmate, checkmate
You are gonna lose 'cause you chose to make the moves you make
Checkmate, checkmate
I'm calling checkmate on you baby
Oh I'm calling checkmate, checkmate
Girl you will always lose when you choose to make the moves you make

I ran out of options
I ran out of options
