

# Tie the Knot

Jesse McCartney

Well it's about that time when all our friends around us  
One by one they're stopping their own lives  
And I can see it in your eyes you want some answers  
Wondering when it's gonna be our time

Now I ain't never been a guy looking for marriage  
That was something I just wouldn't do  
But lately you've been on my brain and I go insane  
Thinking 'bout a life without you

I, I know you...  
You've been waiting to be taken  
I, I know you...  
You've been waiting so patiently

I'm ready, you're ready, we're ready, been ready  
Come on girl, let's tie the knot  
I'll never lie, never cheat, take care of you between the sheets  
Come on girl, let's tie the knot  
And after we say "I do!" (Hey!) Go anywhere we want to (Ho!)  
Drive away, "Just married" on the car, yeah  
I'm on my knees 'cause I believe  
That you're the one that's right for me  
Come on girl, let's tie the knot

They say the grass is always greener, temptation is a killer  
Well girl that's all a lie  
'Cause when we're standing in the mirror  
There's really nothing clearer than you and I

I, I know you...  
You've been waiting to be taken  
I, I know you...  
You've been waiting so patiently

I'm ready, you're ready, we're ready, been ready  
Come on girl, let's tie the knot  
I'll never lie, never cheat, take care of you between the sheets  
Come on girl, let's tie the knot  
And after we say "I do!" (Hey!) Go anywhere we want to (Ho!)  
Drive away, "Just married" on the car, yeah  
I'm on my knees 'cause I believe  
That you're the one that's right for me  
Come on girl, let's tie the knot

I can picture you all in white  
So go pick out the dress that you like  
I wanna spend the rest of my life  
For rich or for poor, I will need nothing more when you're by my side

I'm ready, you're ready, we're ready, been ready  
Come on girl, let's tie the knot  
I'll never lie, never cheat, take care of you between the sheets  
Come on girl, let's tie the knot  
And after we say "I do!" (Hey!) Go anywhere we want to (Ho!)  
Drive away, "Just married" on the car, yeah  
I'm on my knees 'cause I believe

That you're the one that's right for me  
Come on girl, let's tie the knot
