

We Can Go Anywhere

Jesse McCartney

Slow down, things have been a little crazy
Right now it's time to get away
You can find out what it is you're really after
Time is on our side
Come on, we're leaving everything behind

You know that sun is shining
We'll keep driving, doesn't matter where
'Cause we got that open highway leading our way
As long as you are there, yeah, we can go anywhere
Ohh, we can go anywhere, oh, yeah

Breakdown all the pressure that surrounds you
Allow it all to fade away
We can move on looking in the rear view mirror
Wave goodbye
Come on we're leaving everything behind

You know that sun is shining
We'll keep driving, doesn't matter where
'Cause we got that open highway leading our way
As long as you are there, yeah, we can go anywhere

We're gonna be so far gone
Some place we ain't never been before
Finding a favorite song
We'll end up right where we belong

You know that sun is shining
We'll keep driving, doesn't matter where
'Cause we got that open highway leading our way
As long as you are there

You know that sun is shining
We'll keep driving, doesn't matter where
'Cause we got that open highway leading our way
As long as you are there, yeah, we can go anywhere
Ohh, we can go anywhere, yeah

Come with me, everything will be alright, we can go anywhere
Movin' on 'cause we're leavin' it all behind, we can go anywhere
Come with me, everything will be alright
Movin' on 'cause we're leavin' it all behind
Come with me, everything will be alright, we can go anywhere
