

Looking For Love

Jesse Powell

Are you looking for love
Girl, do you need someone to give it to, yeah
Could I be the one to show you
The love that you've been looking for
See what you're going through
Baby, I'm the one for you

I would like to know
If that look that's in your eyes is sincere, tell me
Baby, I am not the type to front
'Cause when I give my love, it's for real, so for real

When the party's over and the lights go down
Tell me if you'll be there when there's no one around
'Cause I really wanna love you and I'll do it well
I can give you something you can truly feel

Are you looking for love
Girl, do you need someone to give it to, yeah
Could I be the one to show you
The love that you've been looking for
See what you're going through
Baby, I'm the one for you

So, what's it gonna be
Do you think you might wanna get with me, tell me
Girl, you've got to let me know
Please don't lead me on, what's the deal, What's the deal

When the music stops and the lights come on
Please don't leave me hanging, baby don't do me wrong
'Cause I really want to love you, and I'll do you right
Give you what you need baby, all through the night

Are you looking for love
Girl, do you need someone to give it to, yeah
Could I be the one to show you
The love that you've been looking for
See what you're going through
Baby, I'm the one for you

Are you looking for love
Girl, do you need someone to give it to, yeah
Could I be the one to show you
The love that you've been looking for
See what you're going through
Baby, I'm the one for you

If you want it, I got it in the morning
If you need it, I got it in the evening
If you want it, I got it in the morning
If you need it, I got it in the evening

Are you looking for love
Girl, do you need someone to give it to, yeah
Could I be the one to show you
The love that you've been looking for

See what you're going through
Baby, I'm the one for you

Are you looking for love
Girl, do you need someone to give it to, yeah
Could I be the one to show you
The love that you've been looking for
See what you're going through
Baby, I'm the one for you
