Up And Down

Jesse Powell

Up & Down In & out Baby let me turn it out Upside down, round and round This is how it's goin' down Baby let me tell you what's been on my mind All the places I can hit it Startin' in my ride Or we can take it to your crib And do it on the floor (baby anywhere you want it) Let me rub you up and down And make you scream and moan In the kitchen on the counter By the telephone Or we can do it over here Or we can do it over there Baby anywhere you want it Up & Down In & out Baby let me turn it out Upside down, round and round This is how it's goin' down (2x) But if you turn on the shower While were in the tub I'll get your body soaking wet And we can rub a dub Or we can take it to my crib If water's what you like (cause baby I've got a Jacuzzi) I'll put on your favorite song A sexy interlude And there's a game that we can play To really set the mood You put your right foot in Your left foot out And baby watch me turn it out Up & Down In & out Baby let me turn it out Upside down, round and round This is how it's goin' down (2x) May I ask why your clothes are still on? Oooh Do you need a glass of Dom Perrion? Let me turn it out until dawn When the day breaks once again it's on
