

I Do Now

Jessica Andrews

Where in the world did you come from
seems like I looked up and there you were
didn't think about it then
but when I look back I believe now
that miracles do occur

'Cause i can reach up and touch any star in the sky
put my arms 'round the moon if I try
never thought I could feel so much love in my life
no I never thought I'd know how
but I do now

Is this a dream
or are you real
I'm trying hard not to loose my cool
when you're kissing me
I just get so lost in the moment
I hope I'm not actin' like some kinda fool

'Cause i can reach up and touch any star in the sky
put my arms 'round the moon if I try
never thought I could feel so much love in my life
no I never thought I'd know how
but I do now

never had no one to miss me
never had no one to kiss me like you
never had no one to love me like you

I can reach up and touch any star in the sky
put my arms 'round the moon if I try
never thought I could feel so much love in my life
no I never thought I'd know how
but I do now
