

# I Do Now

Jessica Andrews

Where in the world did you come from  
seems like I looked up and there you were  
didn't think about it then  
but when I look back I believe now  
that miracles do occur

'Cause i can reach up and touch any star in the sky  
put my arms 'round the moon if I try  
never thought I could feel so much love in my life  
no I never thought I'd know how  
but I do now

Is this a dream  
or are you real  
I'm trying hard not to loose my cool  
when you're kissing me  
I just get so lost in the moment  
I hope I'm not actin' like some kinda fool

'Cause i can reach up and touch any star in the sky  
put my arms 'round the moon if I try  
never thought I could feel so much love in my life  
no I never thought I'd know how  
but I do now

never had no one to miss me  
never had no one to kiss me like you  
never had no one to love me like you

I can reach up and touch any star in the sky  
put my arms 'round the moon if I try  
never thought I could feel so much love in my life  
no I never thought I'd know how  
but I do now
