

Karma

Jessica Andrews

Out of nowhere you just wanna be free
Cut me loose forget all about me
Baby, tell me, have you ever heard
About this little five letter word

What comes around goes around
I'm telling you baby, it's called karma
What goes up comes down
Hits the ground
You're gonna find out
All about, all about
Kkkkkkarma

So go on, go on, go have your day in the sun
Have a blast honey
Have you some fun
But don't forget about that golden rule
What you do to others is gonna get done to you

What comes around goes around
I'm telling you baby, it's called karma
What goes up comes down
Hits the ground
You're gonna find out
All about, all about
kkkkkkkarma

Life is like a kaleidoscope
Changing colors every day
But there is one thing that I know
You can't mess around with your fate
(Go on, go on, go on)

What comes around goes around
I'm telling you baby, it's called karma
What goes up comes down
Hits the ground
You're gonna find out
All about, all about
Kkkkkkarma
I'm telling you baby, it's called karma
What goes up comes down
Hits the ground
You're gonna find out
All about, all about
Kkkkkkarma
Yeah, it's called karma
Kkkkkkarma
