

I Wish I Was Gay

Jessica Lowndes

I wish I was him
Then I'd understand what it takes to make a man
'Cause it hurts and I don't deserve to feel this way
The sting the lies
It always takes me by surprise
I don't get guys

I wish I was gay
I wish I could see
How to escape those boys they always treat me the same
Breaking my heart leaving me all alone
Well girls just don't behave that way
I wish it was over
But I know that I'll fall for it again
And I'll end up love struck
And he don't deserve another chance to speak
I'll know somehow you'll sweep me off my feet
I don't get guys

I wish I was gay
I wish I could see how to escape those boys they always treat me the same
Breaking my heart leaving me all alone
Well girls just don't behave that way
To have someone who listens to me
Loves it like the paparazzi
Knows the way to keep me satisfied
Oh I wish I was
They keep breaking my heart
And I don't get guys

I wish I was gay
I wish I could see how to escape those boys boy boys boys treat me the same
Breaking my heart leaving me all alone
Keep breaking my heart
(I wish you could see how to escape those boys)
And I don't get guys
They always treat me the same
Breaking my heart
They always treat me the same
Leaving me alone
Well girls don't behave that way
No they don't behave that way
I wish I was gay
