

# Forget Your Name

Jessica Mauboy

Funny when you had me you didn't do a thing  
But now that it's over you're calling out my name  
Show up uninvited to each and every place  
Beggin' me to come back saying baby I swear I've changed

Well take two steps back  
'Cause you're spilling your drink all on me now  
And you're killin' my buzz I just wanna have fun while my girls around  
Let me make this clear I don't wanna hear what ya talkin' 'bout  
It ain't about you now  
Ain't about your love I don't wanna hear ya  
Turn the music up so I can't remember  
Who you ever were outta my life forever  
I just wanna dance dance I just wanna dance  
I just wanna dance, when I fall into a trance and I shake you off and forget  
your name  
I just wanna dance dance I just wanna dance  
I just wanna dance, when I fall into a trance and I shake you off and forget  
your name  
I just wanna dance dance I just wanna dance  
I just wanna dance, when I fall into a trance and I shake you off and forget  
your name  
I just wanna dance dance I just wanna dance  
I just wanna dance, when I fall into a trance and I shake you off and forget  
your name

They say that you don't miss a good thing 'til it's gone  
Now look at you crying baby you're alone  
Hope you learnt your lesson, can't treat your woman wrong  
You can beg all night but I won't be coming home

So take two steps back  
'Cause you're spilling your drink all on me now  
And you're killin' my buzz I just wanna have fun while my girls around  
Let me make this clear I don't wanna hear what ya talkin' 'bout  
It ain't about you now  
Ain't about your love I don't wanna hear ya  
Turn the music up so I can't remember  
Who you ever were outta my life forever  
I just wanna dance dance I just wanna dance  
I just wanna dance, when I fall into a trance and I shake you off and forget  
your name

I'm not gonna leave this place 'til I forget your memory  
Stay here all night or day until you're erased

Ain't about your love, I don't wanna hear ya  
Turn the music up so I can't remember  
Who you ever were outta my life forever  
I just wanna dance dance I just wanna dance

Ain't about your love I don't wanna hear ya  
Turn the music up so I can't remember  
Who you ever were outta my life forever  
I just wanna dance dance I just wanna dance  
I just wanna dance, when I fall into a trance and I shake you off and forget  
your name

I just wanna dance dance I just wanna dance  
I just wanna dance, when I fall into a trance and I shake you off and forget  
your name  
I just wanna dance dance I just wanna dance  
I just wanna dance, when I fall into a trance and I shake you off and forget  
your name  
I just wanna dance dance I just wanna dance  
I just wanna dance, when I fall into a trance and I shake you off and forget  
your name
