

# Here For Me

Jessica Mauboy

When did this house get so big  
And when did I get so small  
Seems like the days get longer  
But our times getting shorter

Sitting here for hours  
Trying not to doubt us  
But it's hard cause I'm alone  
I know you're busy  
But damn, don't you miss me?  
I thought you did  
But I guess you don't

Baby, something's wrong  
I'm always alone  
Still trying to hold on  
But you ain't never here for me  
You gonna miss me when I'm gone  
Don't wanna move on  
But you ain't never here for me

Baby, this is what you need  
Cause you can't keep on hurting me  
You gonna make me  
Up and leave, up and leave  
And you'll see what it's like  
To be in love alone  
Cause you ain't never here for me  
For me, for me  
Cause you ain't never here for me  
For me, for me

How can the sun be shining  
And my heart feels so cold  
Is that rain water falling  
Or my tears on the floor

Talking to myself  
But that don't really help  
No, that don't take the place of you  
I know you're busy  
But don't you hear me  
I'm getting close to being gone

Baby, something's wrong  
I'm always alone  
Still trying to hold on  
But you ain't never here for me  
You gonna miss me when I'm gone  
Don't wanna move on  
But you ain't never here for me

Baby, this is what you need  
Cause you can't keep on hurting me  
You gonna make me  
Up and leave, up and leave  
And you'll see what it's like

To be in love alone  
Cause you ain't never here for me

You ain't never  
You ain't never here for me  
You ain't never here for me  
You're never here for me  
You're never here for me

Boy, you're running out of time  
You're gonna make me leave  
And you know what it's like  
To be in love alone  
Cause you ain't never here for me

Ohhhh,  
Baby, something's wrong  
I'm always alone  
Still trying to hold on  
(I'm still trying to hold on)  
But you ain't never here for me  
(But you're never here)  
You gonna miss me when I'm gone  
Don't wanna move on  
But you ain't never here for me  
(But you're never here)

I'm always alone  
Still trying to hold on  
But you ain't never here for me  
(But you're never here)  
You gonna miss me when I'm gone  
Don't wanna move on  
(Don't wanna move on)  
But you ain't never here for me  
(Baby, you were never here for me)  
You ain't never here for me  
(No, baby, you were never here for me)  
You ain't never here for me  
(Baby, you were never)  
(You were never here for me)  
You ain't never here for me  
Ohh, noo, ohh, noo  
You ain't never here for me
