

Run

Jessica Mauboy

There's someone
Very deep inside my heart
But a million miles apart
So i stand i get up and i run

I've hurt and i've lost
But i wont lose this second chance no i won't make this mistake again
Cause boy i know what we've got
Boy i know what we've got
I'm making a move yeh i'm coming for you

I can't wait no more, i've been here before
And i wont let it slip through my fingers
So i Run run run, run run run
As long as we're breathing i got a reason
I cross the sky till i'm by your side
And i'm not gonna stop till i make it
I'm not gonna stop
So i Run run run, run run run
As long as we're breathing i got a reason to run

My feet they won't stop
I can count in every step that i'm closing that again
I don't know, i don't know why i waited
For so long
Why wait so long, why i wait so long
What we had is something good i swear on forever
And i'll be the fool if i chase it to the ends of the earth
Cause boy i know what we've got
Boy i know what we've got
I'm making a move and i'm coming for you

I can't wait no more, i've been here before
And i wont let it slip through my fingers
So i Run run run, run run run
As long as we're breathing i got a reason
I cross the sky till i'm by your side
And i'm not gonna stop till i make it
I'm not gonna stop
So i Run run run, run run run
As long as we're breathing i got a reason to run

To run
To run

I can't wait no more, i've been here before
And i wont let it slip through my fingers
So i Run run run, run run run
As long as we're breathing i got a reason
I cross the sky till i'm by your side
And i'm not gonna stop till i make it
I'm not gonna stop
So i Run run run, run run run
As long as we're breathing i got a reason to run
