

# Gravity

Jessica Riddle

Black clouds are circling around me  
But I can't allow them to surround me  
Til I can't retreat  
And this isn't war, it's devastation  
And there is no end to the frustration  
Til you admit defeat

And I'm putting my heart on display  
Let it move you or simply walk away

I judge a man by his convictions  
If he lives his life without restrictions  
Like he's really free  
And I used to think I had a calling  
But then I learned we're only falling  
'Cause of gravity

And I'm putting my heart on display  
Let it move you or simply walk away
