

# The Night I Danced With You

Jessica Sanchez

I went to dance in the world  
She was there  
Lights in her eyes  
And the rising air o  
And the music whisper chances new  
The night I danced with you

The band was playing spence out here  
Couldn't hear them  
I had my fear  
Of all the sad old songs I knew  
The night I danced with you

I danced with the world  
And the world danced with me  
Paving the pride of the world? free  
And the world held my hand  
And the love came true  
The night I danced with you

I could have waited,  
But I was bolder  
Could have looked behind my shoulder,  
But I found my home  
My love so true the night I danced with you  
Danced with the world  
And the world danced with me  
Paving the pride of the world? free  
And the world held my hand  
And the love came true  
The night I danced with you

Oh, danny boy  
The popsicle and the lonesome?of listen  
How about for just one night  
We whisper! let's now listen!

And I danced with the world  
And the world danced with me  
Paving the pride of the world? free  
And the world held my hand  
And the love came true  
The night I danced with you  
The night I danced with youuuu
