

Fired Up

Jessica Simpson

Stone cold sinner 'bout to get knocked out
Wanna party hard, wanna get real loud
A girl over there, damn near passed out
And thats what happens when you're in the crowd

Somethin' 'bout to make me get - up
Don't have to tell me to get fired up oh
If I don't move now I might erupt
Get fired up, fired up, fired up, fired up

All the girls on the floor, better get fired up
(Get fired up, get fired up)
Boys on the bar, better get fired up
(Get fired up, get fired up)
All my girls at the bar, better get fired up
(Get fired up, get fired up)
Stop getting with mine, better get fired up

Get fired up, fired up, fired up
Uh oh, watch out it's gonna blow
Uh oh, watch out it's gonna blow

Why you over there lookin' left out?
When everybody over here getting real loud?
Wore those jeans here to shake your ass
So shake that thing 'till you lose your change

Somethin' 'bout to make up get up
Don't have to tell me to get fired up
If I don't move now I might erupt
Get fired up, fired up, fired up, fired up

All the girls on the floor, better get fired up
(Get fired up, get fired up)
Boys on the bar, better get fired up
(Get fired up, get fired up)
All my girls at the bar, better get fired up
(Get fired up, get fired up)
Stop gettin' with mine, better get fired up

Get fired up, fired up, fired up
(Uh oh) Watch out it's gonna blow
(Uh oh) Watch out it's gonna blow

Somethin' 'bout to make me get up
Don't have to tell me to get fired up
If I don't move now I might erupt
Get fired up, fired up, fired up, fired up
I'll bet you wanna get fired up
I bet you to scared to get fired up
