

Loving You

Jessica Simpson

I keep on loving

Don't tell me it's time to go
I think my watch is too slow
Please, I don't wanna know
Baby, oh, will it hurt
If I stay till nine
And you put your hands in mine
Boy, I think you should know
I'm not letting you go

Oh, my
I don't want to have to say goodbye
Hold tight
I just want to stay and hold you tight
Oh, I
It feels so right, no matter what we do
I'm just gonna keep on loving you

Yeah, you're like heaven to hold
And you're the flame when I'm cold
Boy, I think you should know
I'm not letting you go

Oh, my
You love me like the rainbow loves the light
Hold tight
Kiss me like the raindrops kiss the sky
Oh, I
It feels so right, no matter what we do
I'm just gonna keep on loving you

I think I should stay a while
And keep enjoying you
Come close, put me in yours arms
And say you want me to
Intoxicated
By the way you're making me move
I'm gonna keep on loving you

I'm gonna keep on loving you
