

# Pray Out Loud

Jessica Simpson

When you're down  
Dont be afraid to pray out loud  
Just close your eyes and let it out  
Take all your fears and doubts  
He's listening right now  
Don't be afraid to pray out loud

Pray out loud

Everybody's got their problems  
Everybody's got their struggles  
We all need a helping hands sometimes  
Sometimes  
And I think back to when I was a little girl  
My daddy said,  
Remember just when you're through this world..

When you're down  
Dont be afraid to pray out loud  
Just close your eyes and let it out  
Take all your fears and doubts  
He's listening right now  
Don't be afraid to pray out loud

Don't have to face it on your own  
We dont have to be alone  
Just open up your arms  
and look up to the big sky  
And pray out loud

When you're down  
Dont be afraid to pray out loud  
Just close your eyes and let it out  
All your fears and doubts  
He's listening right now  
Ohh  
When you're down  
Dont be afraid to pray out loud  
Just close your eyes and let it out  
All your fears and doubts  
He's listening right now

Dont be afraid to pray out loud

Pray out loud (3x)
