

# Distortion

J Sutta

Feel the distortion  
Cut through your veins  
Fuck it up, fuck it up now  
Crush me with the 808's  
Ceilings are breaking  
So high we could fly  
Make it rough, make it rough now  
Forget about a reason why

We are one and the same  
Dancing close to the edge  
Feel the hit your brain  
Take it right to the head

(Distortion)  
We do what we want, turn that shit on  
Cause I wanna feel more than I ever felt before  
(Distortion)  
We do what we love, turn that shit up  
(Distortion)  
Cause I wanna feel more, more, more  
(Make, make, make, make, make it rough now)

Now that we're moving  
Cut to the chase  
Fuck it up, fuck it up now  
Let the rhythm penetrate  
Just what we needed  
So sweet to the taste  
Make it rough, make it rough now  
Let's blow it away

We are one and the same  
Dancing close to the edge  
Feel the hit your brain  
Take it right to the head

(Distortion)  
We do what we want, turn that shit on  
Cause I wanna feel more than I ever felt before  
(Distortion)  
We do what we love, turn that shit up  
Cause I wanna feel more than I ever felt before  
(Distortion)  
We do what we want (distortion), turn that shit on  
Cause I wanna feel more (distortion) than I ever felt before  
(Distortion)  
We do what we love, turn that shit up  
(Distortion)  
Cause I wanna feel more, more, more  
(Make, make, make, make it rough now)

Cause I wanna feel more than I ever felt before  
(Distortion)
