

Forever

J Sutta

You make me feel high when I feel low
Take away my pain, make it no more
Make me feel good all over
Take over my body if you want to
You can change my life if I let you
Things ain't the same when I miss you
I go out of my way just to have you
Put it all on the line if I have to

Cause I, I, I love this feeling you give to me
And I, I, I want this feeling forever
Cause I, I, I love this feeling you give to me
And I, I, I want this feeling forever
I want this feeling forever

I want this feeling forever
I want this feeling forever

I love this feeling
I probably won't sleep until tomorrow evening
Fucking with you would be bad for my health
You make me happy when I'm out of breath
And I know, I should probably leave you
But I always run back cause I really need you
And if I lost it all, I'mma lose it, I love the way you do me

Cause I, I, I love this feeling you give to me
And I, I, I want this feeling forever
Cause I, I, I love this feeling you give to me
And I, I, I want this feeling forever
I want this feeling forever

I want this feeling forever
I want this feeling forever

I want this feeling forever
You make me feel high
You make me feel high
You make me feel high
You make me feel high
I want this feeling forever
You make me feel high
You make me feel high
You make me feel high
You make me feel high
I want this feeling forever
