

Lights Out

J Sutta

I can't see you
But I know you by your touch, your touch, your touch
I can't hear you
But the music is enough, enough, enough
To know what's happening tonight
So Imma put my hands higher & higher
We made it thru the day alive
So Imma put my hands higher & higher

I want your love to set me free
Baby be the only one that I'll ever need
A shooting star for you to see
So keep the lights low when you're next to me

Oh, oh, oh, oh, oh, oh...

Let tonight take over now
Cause I can feel you better with the lights out
Turn the lights out!

Cause I can feel you better with the lights out
Cause I can feel you better with the lights out

When I'm near you
I can always feel the rush, the rush, the rush
I'll never leave you
Cause your eyes say enough, enough, enough
To know what's happening tonight
So Imma put my hands higher & higher
We made it thru the day alive
So Imma put my hands higher & higher

I want your love to set me free
Baby be the only one that I'll ever need
A shooting star for you to see
So keep the lights low when you're next to me

Oh, oh, oh, oh, oh, oh...

Let tonight take over now
Cause I can feel you better with the lights out
Turn the lights out!

Cause I can feel you better with the lights out
Cause I can feel you better with the lights out

When I close my eyes (yeah)
It's taking me high (yeah)
You know how to turn me inside out
I'm holding you tight (yeah)
And It's out of sight (yeah)
Nowhere I would be than here right now

I want your love to set me free
Baby be the only one that I'll ever need
A shooting star for you to see
So keep the lights low when you're next to me

Oh, oh, oh, oh, oh, oh...

Let tonight take over now

Cause I can feel you better with the lights out

Turn the lights out!

Cause I can feel you better with the lights out

Cause I can feel you better with the lights out
