

There's a beauty in the way we vibe  
There's a symmetry in you and I  
Looking back into another life  
Had a feeling you were by my side

In the afterglow  
Infinite flow  
Turn it up tonight  
Fast and then slow  
We make it go  
Till the earth is out of sight

Stop wait a minute  
There's a love affair  
In the atmosphere

Now that we're in it  
Feel our bodies blur  
In the universe

(In the universe)  
(In the universe)

Standing underneath electric skies  
Every memory's open wide  
Anticipation like a rising tide  
Wash over me till I capsize

In the afterglow  
Infinite flow  
Turn it up tonight  
Fast and then slow  
We make it go  
Till the earth is out of sight

Stop wait a minute  
There's a love affair  
In the atmosphere

Now that we're in it  
Feel our bodies blur  
In the universe
