

# Breathe

Jessie J

Everything outside is grey and lonely  
Sparkle like electricity in our city, yeah  
Let's light it up

Falling under pressure I can feel the butterflies  
So you blow smoke inside my mouth  
You light me up

I can be your work of art for life  
You just show me what you want tonight

So together we can breathe  
Wanna give you all of me  
Open up your eyes and love me, love me, love me,  
When am fallin' to my knees  
I wanna give you all of me  
You don't have to take care of me, of me, of me  
Together we can breathe  
Ohh ohh ohh  
Ohh ohh ohh  
Love me, love me  
Together we can breathe  
Ohh ohh ohh  
Ohh ohh ohh  
Love me, love me

Addicted to the colours that your using on me  
Cloud above my head are beautiful and red  
Blow it up  
Its crystal clear weather you know things  
Just inhale me into your world  
Blow it up  
I can be your work of art for life  
You just show me what you want for life

So together we can breathe  
Wanna give you all of me  
Open up your eyes and love me, love me, love me,  
When I'm fallin' to my knees  
I wanna give you all of me  
You don't have to take care of me, of me, of me  
Together we can breathe  
Ohh ohh ohh  
Ohh ohh ohh  
Love me, love me  
Together we can breathe  
Ohh ohh ohh  
Ohh ohh ohh  
Love me, love me  
Together we can breathe  
In and out its all I need to taste the sweet to feel complete  
Ohhh  
In and out its all I need to breathe to breathe we can breathe

I wanna give you all of me  
Open up your eyes and love me, love me, love me  
When I'm falling to my knees

I wanna give you all of me  
You don't have to take care of me, of me, of me  
So together we can breathe  
Ohh ohh ohh  
Ohh ohh ohh  
You love me you love me  
So together can breathe  
You love me, you love, you love me  
So together we can breathe
