

# Bullet

Jessie James Decker

My mama warned me about boys like you,  
It's why I wear these high-healed boots (yeah)  
And let me give you a little piece of advice  
My papa packs heat, and he won't think twice (yeah)

Well, why do ya think they call me Jessie James?  
Too much trouble, better stay away  
Grab your hat, better get gone  
But if you stay-you've been warned...

I'm a bullet and I'm headed straight for your heart  
Be careful what you start  
I'm a bullet and I'm headed straight for your heart  
It's gonna leave a mark  
Be careful what you wish for, you get what you see  
Is that a gun in your pocket?  
Or are you just happy to see me?  
I'm a bullet and I'm headed straight for your heart  
Be careful what you start

Every now and then i make a man break a sweat  
Sweet as a peach, impossible to tame  
Finger's on the trigger and you'll be to blame  
Cause if you stay...

I'm a bullet and I'm headed straight for your heart  
Be careful what you start  
I'm a bullet and I'm headed straight for your heart  
It's gonna leave a mark  
Be careful what you wish for, you get what you see  
Is that a gun in your pocket?  
Or are you just happy to see me?  
I'm a bullet and I'm headed straight for your heart  
Be careful what you start

Yeah, I ride where the wind wants to take me  
Leaving lovers in the dust in every city  
Cause my heart was like a ghost town  
And now I've met a man that breaks me

I'm a bullet and I'm headed straight for your heart  
Be careful what you start  
I'm a bullet and I'm headed straight for your heart  
It's gonna leave a mark  
I'm a bullet, baby (a bullet, baby)  
I'm a bullet, baby (a bullet, baby)  
Is that a gun in your pocket?  
Or are you just happy to see me?  
I'm a bullet and I'm headed straight for your heart  
Be careful what you start
