

Shoot Out the Lights

Jessie James Decker

Remember when we started dating
It was so intoxicating
Living wild and never bound by time
But I gotta tell you lately
We're a bit domesticated
You and me and the tv every night
Don't want to lose that fire fuse
That side of you

Shoot out the lights while we're still young
Chase him home 'till the morning comes
Let them say we're the crazy ones, crazy ones
Let's breathe the air that we used to breathe
Back when we were 17
I want you looking at me like you did that night
So let's shoot out the lights
Shoot out the lights
(Shoot em out, shoot em out, shoot em out
Shoot em out, shoot em out
Shoot em out, shoot em out, shoot em out
Shoot em out, shoot em out)

Want to make your heart race forever
Make every moment we're together
A memory on a highlight reel
Want to keep our energy going
That electricity flowing
Want to be your shock so hard you feel
Don't want to lose
That spark with you

Shoot out the lights while we're still young
Chase him home 'till the morning comes
Let them say we're the crazy ones, crazy ones
Let's breathe the air that we used to breathe
Back when we were 17
I want you looking at me like you did that night
So let's shoot out the lights
Shoot out the lights
(Shoot em out, shoot em out, shoot em out
Shoot em out, shoot em out
Shoot em out, shoot em out, shoot em out
Shoot em out, shoot em out)

Shoot out the lights while we're still young
Chase him home 'till the morning comes
Let them say we're the crazy ones, crazy ones
Let's breathe the air that we used to breathe
Back when we were 17
I want you looking at me like you did that night
So let's shoot out the lights
Shoot out the lights
Shoot out the lights
Shoot out the lights
(Shoot em out, shoot em out, shoot em out
Shoot em out, shoot em out
Shoot em out, shoot em out, shoot em out)

Shoot em out, shoot em out)
Let's shoot out the lights
Shoot out the lights
Shoot out the lights
Shoot out the lights
