

# This Christmas

Jessie James Decker

In this New York weather, I picture us together  
Down the street as snow's falling, like I do for you, my darling  
The lights on the tree, it's not enough for me  
And forget the presents cause you're the only gift that I need

This Christmas I just want you  
This Christmas make it come true  
This Christmas won't be Christmas  
Till you're in my arms

I stare out the window and hope that you're almost home  
I've made turkey dinner and apple pie  
Yes, I remembered  
Santa this is my wish, just bring me him  
My heart keeps on breaking  
Every minute that I'm waiting

This Christmas I just want you  
This Christmas make it come true  
This Christmas won't be Christmas  
Till you come home  
This Christmas don't make me wait  
This Christmas need you to stay  
This Christmas won't be Christmas  
Till you're in my arms

Bring me my baby, bring me my man  
Harness the reindeer as fast as you can

This Christmas I just want you  
(I just want you)  
This Christmas make it come true  
(Make it come true)  
This Christmas won't be Christmas  
Till you come home  
(Come back home)  
This Christmas don't make me wait  
(Don't make me wait)  
This Christmas need you to stay  
(Need you to stay)  
This Christmas won't be Christmas  
Till you're in my arms

Don't make me wait, need you to stay  
Till you're coming home, baby
